Canton, Ohlo .- "I suffered from a female trouble which caused me much suffering. and two doctors decided that I would have to

go through an operation before I could get well. 'My mother, who had been helped by Lydia Pinkham's Vegetable Compound, advised me to try it before submitting

to an operation. It relieved me from my troubles so I can do my housework without any difficulty. I advise any woman who is afflicted with female troubles to give Lydia E. Pinkham's Vegetable Compound a trial, and it will do as much for them "-Mrs. Marke Boyd, 1421 5th

HEAVY MEAT EATERS HAVE SLOW KIDNEYS

Eat Less Meat If You Feel Backachy Or Have Bladder Trouble.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms urically which excites the kidneys, they become overworked from the blood, then we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, orrensive, full of sediment, irregular of passage or attended by a sensation of scalding, stopating meat and get about four ounces of Jad Salts from any pharmacy, take a tablespoonful in a gass of water before breakfast and in a zew days your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder weakfasss.

The 12 teams appointed to raise the special fund of \$25,000 to combat social evil diseases in Memphis with a view to protecting soldlers and saliors returning to this city or passing through en route to their homes got away to a flying start Monday morning.

A representative or the government contributed \$5,000 on condition that Memphis raise \$20,000, and up to the time the campaign was formally launched Monday, husiness men and firms here had pledged \$4,225, making the total in hand \$9,245.

E. W. Porter is chairman of the executive committee and the 12 teams are captained by men who have had wide experience in raising money and who are duly impressed with the necessity of fighting an enemy of returning soldiers and saliors that is far more deadly than builets or shells or other instrumentalities of death devised by the most brilliant of foes.

Furthermore, the government is taking a deep interest in the movement. It has not only agreed to subscribe \$5,000 to the fund in Memphis, but has made it perfectly clear that cleaning up the community here so that returned soldiers and saliors may be properly protected is one of the most important tasks lying ahead in the return to peace conditions.

This work falls more specifically on the public health service which becomes one of the most important arms of the government under the new regime. But Secretary of the Treasury McAdoo has appealed to all civil authorities to "make their communities safe," while Secretary of War Baker has sent a telegram to the governors of all states "urging their co-operation." Secretary of the Navy Daniels has also issued the following strong appeal:

"One of the compensations for the tragedy of war is the find that an enlightened opinion is behind the organized campaign to protect the youth against social disease. It is worse than cancer, more deadly than tuberculosis, more loathesome than cholera. The campaign begun in war to insure the millitary fitness of men in fighting is quite as necessary to save men for civil efficiency. The national government, under the authority of congress, is undertaking this task in co-operation with the state authorities. The full co-operation and sympathetic working together of local, state and federal agencies, backed by sound public sentiment, are needed in this holy campaign for that cleanness of living which alous insures clear thinking and physical exceeding the success at collence."
